

Medication Information

If you need to send medication to school for your child, please note the strict guidelines that must be followed. A parent and physician consent form must be filled out prior to the dispensing of medication at school. No over the counter medicine (Tylenol, Tums, Cough Drops, etc.) may be given out unless a doctor has filled out the required form. These forms are also required when your child needs an Inhaler or EpiPen at school.

Please contact your child's school for the required documents that you and your child's physician need to complete for your child's medication(s). If your child's medication changes, new forms will need to be completed by you and your child's physician for the new prescription. All medication needs to be brought to school by the parent and enclosed in the original container.
